As others have pointed out, this logic applies to obesity, heart disease, and even many cancers. If we want to play the “let’s deny health care to people for bad lifestyle choices” game, it can get dark pretty quickly. Which is why civilized societies don’t do it.

The lesson of this Afghanistan disaster isn't that we should never leave.

The real lessons are that we prob should have left a decade ago after killing Bin Laden & that having a POTUS like Biden who is disengaged, unprepared & totally shot mentally, has real world consequences.

One other lesson: There are also real world consequences to our Generals and national security leadership focusing more on pronouns and CRT than how to properly implement a withdrawal that they only had 20 years or so to plan. A total disgrace

In a healthy country, our senior ranking military leader (Mark Milley) and our Secretary of Defense would resign in shame. In America, both will retire when they wish and then make millions sitting on defense contractor boards.

Why does what's going on in Afghanistan matter to America right now?

No, it's not "muh Afghan democracy" or girls in schools or whatever. It's closer to home.

It's that the Taliban just emptied the jails & Biden has a policy of keeping our borders wide open. That's dangerous.

Our institutions have failed. The corrupt, incompetent elite will try to hang on for a while through habit and inertia, then via propaganda, and when that fails, through fear.

But it won't work. Change is coming. They can't stop it.

      The US already has a vetting system for refugees and SIVs. I don't think your reaction to seeing parents pass babies over barbed wire to get them to safety should be to suspect that they're sleeper terrorists.

What movement? My grandparents were similar to yours. Appalachia to Bethlehem Steele in Baltimore. The mill killed them and my mom has RA and scarred lungs after years of chemical rains and the asbestos my grandfather brought home. Nothing about that life was good. Nothing!

We're not vetting Afghan refugees properly, and we need to stop bringing tens of thousands into our country. Anybody who tells you otherwise is full of it.

Kinda sorta. In reality, we spend all that money on a university system that is designed to give privileged kids a way to distinguish themselves from the less privileged, without having to demonstrate any additional merit.

JD Vance Issues Statement Blasting Biden Incompetence That Lead to Americans Dead in Kabul

CINCINNATI - JD Vance, candidate for US Senate in Oh o, today issued the fo lowing statement strongly criticizing Joe Biden's ncompetence around the increasingly tense situation h Kabul According to a statement issued by the Pentagon a number of United States service members were killed today in an attack at Kabul airport

"Brave American service men and women senselessly lost their lives today I'm praying for them and their loved ones and all of those who are still stuck in Kabul. The US' withdrawal did not have to be this way, and I'm infuriated that the Biden Administration allowed this to happen. Today's tragedy is the direct result of Joe Biden's incompetence and refusal to deal with a serious situation that continues to engulf and ruin innocent American lives. He has proven to be a failure for the American people. He should resign."

Former United States Trade Representative Robert Lighthizer Endorses JD Vance for U.S. Senate

CINCINNATI – Former United States Trade Representative and Trump Cabinet Official Robert Lighthizer today endorsed conservative outsider JD Vance for U.S. Senate in Ohio. Lighthizer, an Ashtabula, Ohio native, served under President Donald J. Trump as his US Trade Representative.

"I'm proud to endorse JD Vance's candidacy for U.S. Senate. JD will advocate for our working-class and work to rebuild our country's industrial base by continuing President Trump's America First foreign policy that renegotiated trade deals and held big corporations accountable. He will stand up to China, which already has its claws in our tech industry, and will fight for the forgotten communities of Ohio whose jobs were shipped overseas. He is the strong leader that Ohio needs in the U.S. Senate," said Lighthizer.

"From during his time as a trade official in the Reagan Administration and over the last 30 years, Bob Lighthizer has been one of the most consistent voices for a pro-America, pro-middle class trade policy. If our leaders had listened to Bob in the 1990s and 2000s, we would not have seen China steal millions of middle-class manufacturing jobs, and we would have far more self-sufficiency and prosperity. President Trump gave Ambassador Lighthizer perhaps the most important job in American economic policy, and he did a great job for our president and country. I'm honored to have his support and I'll be thrilled to rely on his counsel when I get to the Senate," said Vance.

Vance's campaign continues to gain traction among former Trump cabinet officials and other conservative leaders with this endorsement from Lighthizer. Vance has received endorsements from Former EPA Administrator Andrew Wheeler, former National Security Advisor Robert O'Brien and Indiana Congressman Jim Banks.

      In December 2015 the Austin City Council passed an ordinance that would require new drivers for ride sharing apps to be fingerprinted and registered with the City. Uber and Lyft knew that this would heavily cut into their ability to recruit new drivers.

      Why was Austin City Council, and indeed many City Councils across the country proposing this measure? Because of the international epidemic of sexual assaults happening in ridesharing apps at the time of the dispute.

      So they immediately went into overdrive, eventually successfully lobbying for a ballot proposition that would have voters decide. All in all the companies would spend a combined $8 MILLION dollars on propaganda, a sum that would have easily covered the costs of fingerprinting.

      I was a student at this time, with no car, in a city with a pretty sketch bus service to begin with. It sucked, but thankfully some competitors entered the scene, including ones with different, more community centric business models.

      Ride Austin and Fasten were the ones I used most at the time, with the cool part about Ride Austin being a $2 flat fee for the app, as opposed to the percentage model of Uber & Lyft. Drivers were happy, these companies were actually easier for them to work for than the behemoths.

      The bill that finally passed, HB 100, wasn't one that created a broad and open market for ridesharing, rather one that enshrined Uber and Lyft's precise business model into statute. A classic example of Corporate Republicanism masquerading as a love of markers.

JD Vance Issues Statement Opposing Columbus Mayor Andrew Ginther's Mask Mandate

CINCINNATI – JD Vance, candidate for U.S. Senate in Ohio, today issued the following statement opposing Columbus Mayor Andrew Ginther's dec sion to impose a mask mandate for al ndoor public places.

"I strongly oppose Columbus Mayor Ginther's decision to impose an unscientific mask mandate. There is little to no evidence that mandatory masking does anything to stop the spread of covid, but the harm forced masking is doing to our children is impossible to calculate. At this rate our school children will never see another's face, which will have serious developmental, social and psychological repercussions down the line for an entire generation of kids. We are constantly told to 'follow the science,' yet these mandates are arbitrary and have much more to do with virtue signaling to the Left than anyone's health. In the last few days, Sweden – that notoriously anti-science hot spot – announced that they were eliminating most COVID restrictions. And recent reports have shown that much of our CDC guidance comes via undue influence from national teachers' unions. We should be willing to learn the lessons of the last 18 months and stop with mandates that do nothing. Mayor Ginther, I urge you to reconsider."

At least you agree that the lack of vaccination in any resident of our country is cause for alarm. And I agree that this action by the President (not sure the relevance of his age, tho) does not go far enough. But it is a good start, imo.

An administration desperate to save face after their botched withdrawal tells us they conducted a precision strike against “ISIS-K”, a group we never heard of before, and it turns out they killed a bunch of innocent people. Despicable.

> **Evan Hill** @evanhill
> The final act of the U.S. war in Afghanistan was a drone strike in Kabul that killed 10 people. Our latest investigation shows how a man the military saw as an "imminent threat" and "ISIS facilitator" was actually an aid worker returning to his family.

"On this 20th anniversary of those terrible attacks, I hope we don't just remember the dead and their families; I hope we recommit to being the sort of country they'd be proud of."

JD VANCE
U.S. SENATE
CONSERVATIVE OUTSIDER

JD VANCE ISSUES STATEMENT ON 9/11

CINCINNAT — JD Vance, candidate for U.S. Senate in Ohio, issued the following statement on the 20th anniversary of September 11.

"Twenty years ago we lost more than 3,000 Americans on 9/11. The stories that came from the days and years after 9/11 are a testament to the decency of this country and her people. There was the young husband and father who invited his fellow passengers to say the Lord's Prayer before declaring "let's roll" and taking back one of the hijacked airliners. The firefighters who ran into the burning buildings knowing it could lead to their deaths. The millions of troops who volunteered to fight our country's wars in the aftermath of the attack. On this 20th anniversary of those terrible attacks, I hope we don't just remember the dead and their families; I hope we recommit to being the sort of country they'd be proud of."

Biden's Medical Apartheid compels the working-class vaccine hesitant, while exempting illegal migrants, airlifted Afghans, and those on public assistance.

It's as targeted as it is illegal.

My new op-ed:
realclearpolitics.com/articles/2021/ ...

realclearpolitics.com

In addition, there is little doubt about the politics here as this Biden command directly targets the millions of working-class Americans who are already reluctant to accept the prescriptions of ruling-class "experts." In other words, Biden has imposed a medical apartheid that places a bulls-eye on the backs of the "deplorables" while exempting key groups he deems more worthy.

Thrilled to have Josh Hawley's friendship and support.

JD VANCE U.S. SENATE

U.S. Senator from Missouri Josh Hawley Endorses JD Vance for U.S. Senate

CINCINNATI – United States Senator from Missouri Josh Hawley today endorsed conservative outsider JD Vance for U.S. Senate in Ohio. Hawley has served as a Missouri senator since 2019, and previously served as Missouri's 42nd attorney general

"I'm proud to endorse JD Vance for U.S. Senate from Ohio. JD knows well the devastating realities that our country faces. Especially in Ohio, families gripped by addiction have the cards stacked against them and entire towns continue to plummet. JD will fight for tighter restrictions at the southern border, bring back a robust manufacturing industry and put the needs of our own American citizens first. JD is the only candidate out in front of the corruption in our technology industry. He will crack down on Big Tech bowing down to China, stand up for the American worker, and put our country back on the track of prosperity and opportunity," said Hawley

"I'm honored to receive Josh's endorsement. No one else in the U.S. Senate has fought as tirelessly against the Big Tech monopolists who censor conservatives and control the flow of information in our country. Josh points the way toward a conservatism that stands for the interests and values of American workers and families. I'm honored to have his support and thrilled to work with him in the Senate," said Vance

Hawley's endorsement follows other conservative leaders announcing their support for JD's campaign Notably, Concerned Women for America President Penny Nance endorsed JD last week, and former Trump cabinet officials Andrew Wheeler, Robert Lighthizer and Robert O'Brien announced their endorsements for JD in August, as did Indiana Congressman Jim Banks. These endorsements demonstrate that JD's campaign continues to build consistent support among strong America First leaders

Claremont Institute's John Eastman, JD Vance, and D.J. Swearingen File Amicus Brief in Ohio Lawsuit to Declare Google a Public Utility

Claremont, CA, September 15, 2021 The Claremont Institute's Center for Constitutional Jurisprudence (CCJ) yesterday filed an amicus brief in *State of Ohio v. Google*, a lawsuit filed by Ohio Attorney General Dave Yost asking a Delaware County Court to declare Google a public utility.

The filing of the amicus brief follows Google's motion to dismiss the case. Yost filed the lawsuit against the company in June. JD Vance and D.J. Swearingen joined the Claremont Institute's John C. Eastman and affiliated attorney Adam Candeub in its filing of the amicus brief, which opposes Google's motion to dismissal.

"The Claremont Institute's goal is to protect public discourse and a robust marketplace of ideas, and therefore... has a real and substantial interest in the Attorney General's efforts to

choice and access to information threatening Ohioans' ability to fully engage in public discourse.

The amicus brief recognizes the major role Google plays across the political, economic and social spheres of society and charts why its services, which are essential and available to all, satisfy the threshold to characterize it as a public service.

The amicus brief also asserts that its "monopolistic and anticompetitive behavior" qualifies "as a matter of public concern." Google's meeting the criteria of both a public service and public concern deems it a public utility under Ohio law.

For these reasons, Claremont's Center for Constitutional Jurisprudence, Vance and Swearingen urge the Court to deny Google's motion to dismiss the case and protect consumers and ensure that information is displayed and transmitted equally and without discrimination.

"Dave Yost deserves to be applauded for this landmark lawsuit which can give Ohio the ability to provide overdue meaningful oversight of Big Technology companies like Google," said Vance. "I'm proud to join the Claremont Institute and DJ Swearingen in challenging Big Tech's stranglehold on the public square."

"Joining the filing of this brief sends a message to Big Tech that Ohioans want a free and open Internet, not interference, censoring or gatekeeping of crucial information," said Swearingen. "That's why I'm proud to stand up to Big Tech with

Turning Point Action Founder Charlie Kirk Endorses JD Vance for U.S. Senate

CINCINNATI – Charlie Kirk, Founder and President of Turning Point Action, today endorsed conservative outsider JD Vance for U.S. Senate in Ohio. Kirk also hosts conservative talk radio show "The Charlie Kirk Show" on Salem Radio Network.

"I'm proud to endorse JD Vance for U.S. Senate in Ohio. There is no one more committed to defeating the institutional left and reversing American decline than JD. He will fight to secure the border and cut immigration to protect American voters, break up Big Tech companies that censor conservatives, stop all covid mandates and vaccine passports and lead the charge against racist Critical Race Theory in our schools and military. Fundamentally, JD not only understands the importance of reducing the power of our out-of-control Federal Government, but also the importance of reducing the power of woke multinational corporations who attempt to impose their leftwing values on Middle America. JD represents the next generation of fearless conservative leaders and Ohio voters can count on him to take the fight to the radical left in defense of their values," said Kirk.

"I'm honored to receive Charlie's endorsement. Charlie knows that our country is headed in a downward spiral. To win the country back and make it possible for middle- and working-class Ohioans to build lives of dignity, we need a movement that serves them and pushes back against leftist control of our institutions. Charlie has been an important leader in that work for a long time, and I'm thrilled to have his support in this race," said Vance.

   @**RNCResearch** Cardona said no such thing. I quote from clip. "I believe parents are important stakeholders, but I also believe educators have a role in determining educational programming." And he's absolutely right. Educators, like doctors or lawyers are trained to do their jobs.

BREAKING: CA will require our kids to get the COVID-19 vaccine to come to school. This will go into effect following full FDA approval. Our schools already require vaccines for measles, mumps and more. Why? Because vaccines work. This is about keeping our kids safe & healthy.

Office of the Attorney General
Washington, D. C. 20530

October 4, 2021

MEMORANDUM FOR DIRECTOR, FEDERAL BUREAU OF INVESTIGATION
DIRECTOR, EXECUTIVE OFFICE FOR U.S. ATTORNEYS
ASSISTANT ATTORNEY GENERAL, CRIMINAL DIVISION
UNITED STATES ATTORNEYS

FROM: THE ATTORNEY GENERAL

SUBJECT: PARTNERSHIP AMONG FEDERAL, STATE, LOCAL, TRIBAL, AND TERRITORIAL LAW ENFORCEMENT TO ADDRESS THREATS AGAINST SCHOOL ADMINISTRATORS, BOARD MEMBERS, TEACHERS, AND STAFF

In recent months, there has been a disturbing spike in harassment, intimidation, and threats of violence against school administrators, board members, teachers, and staff who participate in the vital work of running our nation's public schools. While spirited debate about policy matters is protected under our Constitution, that protection does not extend to threats of violence or efforts to intimidate individuals based on their views.

Threats against public servants are not only illegal, they run counter to our nation's core values. Those who dedicate their time and energy to ensuring that our children receive a proper education in a safe environment deserve to be able to do their work without fear for their safety.

The Department takes these incidents seriously and is committed to using its authority and resources to discourage these threats, identify them when they occur, and prosecute them when appropriate. In the coming days, the Department will announce a series of measures designed to address the rise in criminal conduct directed toward school personnel.

Coordination and partnership with local law enforcement is critical to implementing these measures for the benefit of our nation's nearly 14,000 public school districts. To this end, I am directing the Federal Bureau of Investigation, working with each United States Attorney, to convene meetings with Federal, state, local, Tribal, and territorial leaders in each federal judicial district within 30 days of the issuance of this memorandum. These meetings will facilitate the discussion of strategies for addressing threats against school administrators, board members, teachers, and staff, and will open dedicated lines of communication for threat reporting, assessment, and response.

The Department is steadfast in its commitment to protect all people in the United States from violence, threats of violence, and other forms of intimidation and harassment.

Christopher F. Rufo ⚔ @realchrisrufo

JD Vance Calls for U.S. Attorney General Merrick Garland's Resignation

CINCINNATI – JD Vance candidate for U.S Senate in Ohio, today issued the following statement calling for the resignation of United States Attorney General Merrick Garland Vance's statement follows the issuance of Garland's memo instructing the Federal Bureau of Investigation to target parents who are "threats" for opposing Critical Race Theory indoctrination in schools.

"As crime and murder have exploded across our country and Mexican drug cartels flood our country with deadly fentanyl, Merrick Garland has decided the real threat to our Republic is moms protesting racist Critical Race Theory at school board meetings. Garland is quite clearly trying to chill free speech and silence dissent on behalf of the Democrat Party. His attempt to weaponize the Federal Government to target Joe Biden's political enemies must not be tolerated. Garland should resign immediately," said Vance.

Aztecs believe their rain god Tlaloc required the tears of children. Priests would hold children captive and make their teeth rot. Nerves exposed, the children would weep in agony before being ritualistically sacrificed. This is established historical fact.

Asking questions about violent adult criminals who get roughed up by police is blaming the victim. Publishing information about a girl who was raped is regime-approved good journalism.

The right wing media has been publishing stories about this case for months, including stories that ID her father, thus ID'ing her. The stories have included lurid (often inaccurate) details about what happened Your problem is that this story doesn't have your preferred slant

It's a bad tweet, but I think the full article is much clearer that saying yes to sex in the past doesn't remove your right to say no at any point. What happened sounds pretty clearly like rape

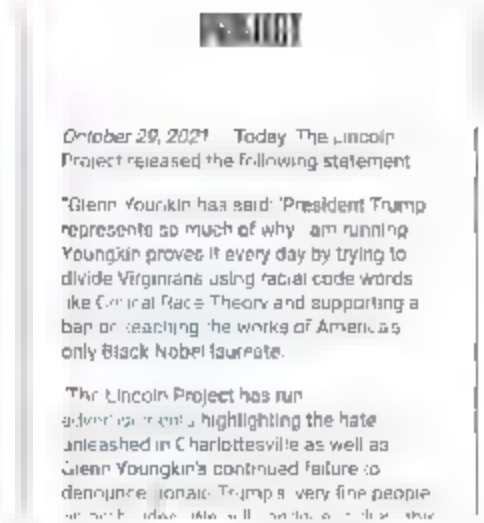
So the Lincoln Project was behind the Tiki Torch thing today.



October 29, 2021 Today The Lincoln Project released the following statement

"Glenn Youngkin has said 'President Trump represents so much of why am running' Youngkin proves it every day by trying to divide Virginians using racial code words ike Critical Race Theory and supporting a ban on teaching the works of America's only Black Nobel laureate.

"The Lincoln Project has run advertisements highlighting the hate unleashed in Charlottesville as well as Glenn Youngkin's continued failure to denounce Donald Trump's 'very fine people

"Today's demonstration was our way of reminding Virginians what happened in Charlottesville four years ago, he Republican Party's embrace o those values, and Glenn Youngkin's failure to condemn it

"The Youngkin campaign is enraged by our reminder of Charlottesville for one simple reason Glenn Youngkin wants Virginians to orget that he s Donald Trump's candidate

"We will continue to hold Glenn Youngkin accountable he will denounce Trump's assertion that the Charlottesville rioters possessed very fine qualities we withdraw the tiki torches. Until then we'll be back."

NEW: Ohio U.S. Senate candidate @JDVance1 statement on illegal immigration

JD VANCE

JD Vance Issues Statement Blasting Joe Biden's Plan to Give Illegal Immigrants $400K Funded by Taxpayers

CINCINNATI — JD Vance, candidate for U.S. Senate in Ohio, today issued the below statement on Joe Biden's plan to give illegal immigrants $400,000+ each funded by taxpayers.

"We've witnessed an invasion at the southern border with a record breaking 1.7 million apprehensions in 2021 alone. That's a 400 percent increase from when President Trump was in office. Now, Joe Biden has decided to spit in the face of American citizens by rewarding illegal aliens for breaking our laws with insane $400,000+ payouts funded by taxpayers. Never in our history has an American president invited millions to break our laws, and then paid them a ransom for doing so. At this point, it's impossible to attribute these border policies to incompetence or recklessness. And it's worth asking why an American president has sanctioned an invasion of his own country—an invasion that has led to skyrocketing fentanyl deaths, emboldened sex traffickers, and resulted in extraordinary profits for Mexican drug cartels. The answer is provided by the president's own words: Joe Biden has decided that he doesn't much like the people of his own country, and so it's time to bring in millions of others who better align with his own party's vision and ambitions."

Good! Time to shed some light on this farce of a trial. Though the judge is doing the best he can, there's no reason this should have been brought to trial

Ohio Veterans United Endorses JD Vance for U.S. Senate

COLUMBUS – Ohio Veterans United today endorsed JD Vance for U.S. Senate. Ohio Veterans United is a political action committee that supports a strong national defense and defends traditional American values.

"There is no doubt that JD will bring his leadership and 'get it done' attitude to the U.S. Senate," said Richard Stobbs, Chairman of Ohio Veterans United's Endorsement Committee. "JD served honorably in the Marines for four years, including in combat service in Iraq, and received numerous awards and ribbons during his time as an enlisted man. He is unwavering in his support for our law enforcement first responders and senior citizens. That's why Ohio Veterans United firmly stands behind JD's candidacy and looks forward to the day he becomes United States Senator."

"At a time when veterans are sleeping on park benches, meanwhile, the president of the United States is giving $450,000 to illegal aliens who break our laws, it's important that we stand up for our veterans," said Vance. "That's one of the reasons I'm honored to receive the endorsement from Ohio Veterans United. They're doing the hard work of representing veterans in Ohio, standing up for their interests and I'm thrilled to have their support."

Rittenhouse did commit one serious and unforgivable crime. He's a white male. That's why he's on trial. That's why the Left wants him to rot in a cage.

JD Vance Issues Statement in Response to Rittenhouse Acquittal

CINCINNATI – JD Vance, candidate for U.S. Senate in Ohio, issued the below statement in response to the acquittal of Kyle Rittenhouse

"Even though Kyle Rittenhouse has been acquitted in the courts of law, he was long ago convicted in the court of public opinion. Not only was the trial a total embarrassment, but it also showed that our entire criminal justice system is nothing more than a big joke. For the last year, a teenage boy was slandered and attacked by a biased conglomerate of progressive advocates claiming to be journalists to make sure that he was not afforded his constitutional right to a free and fair trial. The jury was harassed by MSNBC employees. Kyle faced a corrupt prosecutor who attacked law abiding citizens while excusing the actions of looters, rioters and thieves and went so far as to call them "heroes." The deceit and dishonesty that we saw in this case is a disgrace and made a mockery of our First Amendment, which does not give a license for the powerful to harass politically inconvenient children. This was not impartial justice in a constitutional society it was mob rule in a banana republic."

      So Cash bail isn't appropriate? This is a false equivalency. One thing has nothing to do with the other. If the defendant was out on cash bail and commits another crime, those are two separate events. Of course JD who went to Yale knows this he is just trying to Dog Whistle.

The Waukesha terrorist is just one of many criminals that Soros-backed prosecutors have released into our cities. It's plainly obvious that the result of his "philanthropy" is death and crime across America. Time for Congress to investigate.

Notice the framing here: “have to care for a child.” Many women would rather care for their kids than ship them off to a government daycare center. Our public policy shouldn’t pretend those women are invisible, or that raising a family is only for those forced into it.

This is repulsive pathological behavior. Spamming email service providers until they deplatform a complete stranger's business and then gloating about it via Thanksgiving post... just shows they're obsessed with ruining people's lives & this is all they have to live for

JD Vance Issues Statement Opposing Portman-Warner-Sinema Cryptocurrency Amendment

CINCINNATI – JD Vance, a candidate running for U.S. Senate in Ohio, today issued the following statement opposing the Biden endorsed Portman-Warner-Sinema amendment regulating cryptocurrencies in the infrastructure bill.

"The Biden endorsed, Portman-Warner-Sinema amendment being proposed in the infrastructure bill to regulate cryptocurrencies picks Big Tech as the winners, and Ohioans are the losers. Not only would this bill lead to mass surveillance of those in the cryptocurrency community, experts in the field warn that it could amount to a backdoor ban of Bitcoin and other popular cryptocurrencies.

Our tech sector used to be defined by innovative upstarts and is now dominated by boring monopolists. They focus less on tech development and more on corporate buzzwords like 'diversity, equity and inclusion.' The crypto community has stood in stark contrast to this shift. It is one of the few sectors of our economy where conservatives and other free thinkers can operate without pressure from the social justice mob. This amendment threatens that community, which makes it an assault on the idea that our economy should be about making things instead of enforcing progressive dogma.

I urge every Senator to reject this disastrous amendment and to instead support the Wyden-Toomey-Lummis Amendment in its place."

   For Immediate Release: JD Vance, a candidate with no chance in hell of winning the GOP primary for U.S. Sen. in OH, failed to use spell check prior to sending out press release. If he had, it would have let him know that it's spelled August.

JD Vance Issues Statement Opposing Portman-Warner-Sinema Cryptocurrency Amendment

CINCINNATI – JD Vance, a candidate running for U S Senate in Ohio, today issued the following statement opposing the Biden endorsed Portman-Warner-Sinema amendment regulating cryptocurrencies in the infrastructure bil

"The Biden endorsed, Portman-Warner-Sinema amendment being proposed in the infrastructure bill to regulate cryptocurrencies picks Big Tech as the winners, and Ohioans are the losers. Not only would this bill lead to mass surveillance of those in the cryptocurrency community, experts in the field warn that it could amount to a backdoor ban of Bitcoin and other popular cryptocurrencies

Our tech sector used to be defined by innovative upstarts and is now dominated by boring monopolists. They focus less on tech development and more on corporate buzzwords like 'diversity, equity and inclusion.' The crypto community has stood in stark contrast to this shift. It is one of the few sectors of our economy where conservatives and other free thinkers can operate without pressure from the social justice mob. This amendment threatens that community, which makes it an assault on the idea that our economy should be about making things instead of enforcing progressive dogma.

I urge every Senator to reject this disastrous amendment and to instead support the Wyden-Toomey-Lummis Amendment in its place."

JD Vance Issues Statement Opposing Portman-Warner-Sinema Cryptocurrency Amendment

CINCINNATI – JD Vance, a candidate running for U S Senate in Ohio, today issued the following statement opposing the Biden endorsed Portman-Warner-Sinema amendment regulating cryptocurrencies in the infrastructure bil

"The Biden endorsed, Portman-Warner-Sinema amendment being proposed in the infrastructure bill to regulate cryptocurrencies picks Big Tech as the winners, and Ohioans are the losers. Not only would this bill lead to mass surveillance of those in the cryptocurrency community, experts in the field warn that it could amount to a backdoor ban of Bitcoin and other popular cryptocurrencies

Our tech sector used to be defined by innovative upstarts and is now dominated by boring monopolists. They focus less on tech development and more on corporate buzzwords like 'diversity, equity and inclusion.' The crypto community has stood in stark contrast to this shift. It is one of the few sectors of our economy where conservatives and other free thinkers can operate without pressure from the social justice mob. This amendment threatens that community, which makes it an assault on the idea that our economy should be about making things instead of enforcing progressive dogma.

I urge every Senator to reject this disastrous amendment and to instead support the Wyden-Toomey-Lummis Amendment in its place."

      For Immediate Release: JD Vance, a candidate with no chance in hell of winning the GOP primary for U.S. Sen. in OH, failed to use spell check prior to sending out press release. If he had, it would have let him know that it's spelled August.

JD Vance Issues Statement Opposing Portman-Warner-Sinema Cryptocurrency Amendment

CINCINNATI – JD Vance, a candidate running for U.S. Senate in Ohio, today issued the following statement opposing the Biden endorsed Portman-Warner-Sinema amendment regulating cryptocurrencies in the infrastructure bil

"The Biden endorsed, Portman-Warner-Sinema amendment being proposed in the infrastructure bill to regulate cryptocurrencies picks Big Tech as the winners, and Ohioans are the losers. Not only would this bill lead to mass surveillance of those in the cryptocurrency community, experts in the field warn that it could amount to a backdoor ban of Bitcoin and other popular cryptocurrencies

Our tech sector used to be defined by innovative upstarts and is now dominated by boring monopolists. They focus less on tech development and more on corporate buzzwords like 'diversity, equity and inclusion.' The crypto community has stood in stark contrast to this shift. It is one of the few sectors of our economy where conservatives and other free thinkers can operate without pressure from the social justice mob. This amendment threatens that community, which makes it an assault on the idea that our economy should be about making things instead of enforcing progressive dogma.

I urge every Senator to reject this disastrous amendment and to instead support the Wyden-Toomey-Lummis Amendment in its place."

JD Vance Issues Statement Opposing Portman-Warner-Sinema Cryptocurrency Amendment

CINCINNATI – JD Vance, a candidate running for U.S. Senate in Ohio, today issued the following statement opposing the Biden endorsed Portman-Warner-Sinema amendment regulating cryptocurrencies in the infrastructure bill.

"The Biden endorsed, Portman-Warner-Sinema amendment being proposed in the infrastructure bill to regulate cryptocurrencies picks Big Tech as the winners, and Ohioans are the losers. Not only would this bill lead to mass surveillance of those in the cryptocurrency community, experts in the field warn that it could amount to a backdoor ban of Bitcoin and other popular cryptocurrencies.

Our tech sector used to be defined by innovative upstarts and is now dominated by boring monopolists. They focus less on tech development and more on corporate buzzwords like 'diversity, equity and inclusion.' The crypto community has stood in stark contrast to this shift. It is one of the few sectors of our economy where conservatives and other free thinkers can operate without pressure from the social justice mob. This amendment threatens that community, which makes it an assault on the idea that our economy should be about making things instead of enforcing progressive dogma.

I urge every Senator to reject this disastrous amendment and to instead support the Wyden-Toomey-Lummis Amendment in its place."

JD Vance Issues Statement Opposing Portman-Warner-Sinema Cryptocurrency Amendment

CINCINNATI – JD Vance, a candidate running for U.S. Senate in Ohio, today issued the following statement opposing the Biden endorsed Portman-Warner-Sinema amendment regulating cryptocurrencies in the infrastructure bill.

"The Biden endorsed, Portman-Warner-Sinema amendment being proposed in the infrastructure bill to regulate cryptocurrencies picks Big Tech as the winners, and Ohioans are the losers. Not only would this bill lead to mass surveillance of those in the cryptocurrency community, experts in the field warn that it could amount to a backdoor ban of Bitcoin and other popular cryptocurrencies.

Our tech sector used to be defined by innovative upstarts and is now dominated by boring monopolists. They focus less on tech development and more on corporate buzzwords like 'diversity, equity and inclusion.' The crypto community has stood in stark contrast to this shift. It is one of the few sectors of our economy where conservatives and other free thinkers can operate without pressure from the social justice mob. This amendment threatens that community, which makes it an assault on the idea that our economy should be about making things instead of enforcing progressive dogma.

I urge every Senator to reject this disastrous amendment and to instead support the Wyden-Toomey-Lummis Amendment in its place."

   For Immediate Release: JD Vance, a candidate with no chance in hell of winning the GOP primary for U.S. Sen. in OH, failed to use spell check prior to sending out press release. If he had, it would have let him know that it's spelled August.

JD Vance Issues Statement Opposing Portman-Warner-Sinema Cryptocurrency Amendment

CINCINNATI – JD Vance, a candidate running for U S Senate in Ohio, today issued the following statement opposing the Biden endorsed Portman-Warner-Sinema amendment regulating cryptocurrencies in the infrastructure bil

"The Biden endorsed, Portman-Warner-Sinema amendment being proposed in the infrastructure bill to regulate cryptocurrencies picks Big Tech as the winners, and Ohioans are the losers Not only would this bill lead to mass surveillance of those in the cryptocurrency community, experts in the field warn that it could amount to a backdoor ban of Bitcoin and other popular cryptocurrencies

Our tech sector used to be defined by innovative upstarts and is now dominated by boring monopolists. They focus less on tech development and more on corporate buzzwords like diversity, equity and inclusion.' The crypto community has stood in stark contrast to this shift It is one of the few sectors of our economy where conservatives and other free thinkers can operate without pressure from the social justice mob. This amendment threatens that community, which makes it an assault on the idea that our economy should be about making things instead of enforcing progressive dogma.

I urge every Senator to reject this disastrous amendment and to instead support the Wyden-Toomey-Lummis Amendment in its place."

A real estate agent in Cincy told me it's nearly impossible for first time buyers to get homes right now. They need to waive inspections and pay 20-30 percent above asking. Most people simply can't do that.

This is nuts. “Diversity, equity, and inclusion” staff at Ohio State has ballooned—money spent would cover the cost of tuition for over 1,000 kids.

Mark J. Perry @Mark J. Perry

Just out today: @OhioState has a small army of 132 "diversicrats" at an avg. salary of $77,000 and total est. payroll cost of $13.4M, which would cover in-state tuition for 1,120 students.

New Twitter leadership appears to be purging right wing anon accounts.

No pretext could ban all of these accounts at the same time. Some kind of new banning algorithm has been deployed, probably using network analysis to suppress an entire cluster at once.

Sources reporting that accounts they've never even tweeted from have been banned. Suggests this purge is based on who you follow, not what you've tweeted

Do you think it's a new algorithm? They removed a similar cluster (RW anons and publishers) simultaneously a couple months ago

My guess is it's an old algorithm that was previously used for shadowbanning / monitoring, repurposed for permabans. Or it's like you said and they're just doing the purge in stages

"During the Trump administration, our country imposed tariffs on many goods coming into the United States from China. These policies had the effect of offsetting China's unfair economic advantages." - @JDVance1 & Bob Lighthizer, USTR for President Trump

beaconjournal.com/story/opinion/...

nce and Lighthizer: Continuing iffs on China is a step toward ping US workers

Vance and Robert Lighthizer

shed 7:05 a.m. ET Sept. 9, 202

ght of Labor Day this past weekend, it s worth eting on the condition of organized labor in ntry. And for private sector unions, things are ng good. Not long after World War II, 35% ate sector workers belonged to a union, now number is 6.3% (which is actually a slight ease over recent years).

As we now know, China gives companies who relocate their factories a massive advantage: cheap workers with few expectations and no rights. Some of our biggest corporations, like Apple, have benefited from literal slave labor in China.

That our biggest companies have taken their businesses to places like China is shameful, but our government policy shouldn't depend on our biggest companies doing the right thing. In fact, during the Trump administration, which one of us served in the Cabinet, our country imposed tariffs on many goods coming into the United States from China. These policies had the effect of offsetting China's unfair economic advantages and sending a clear signal to U.S. companies that, for the first time, bringing jobs home and reduce our dependence on China.

Every one of you will get COVID. The good news is that it probably won't kill you. The bad news is that something else will.

On-shoring and prioritizing American manufacturing must be a foundational objective of America First.

Use both carrot and stick — i.e. create the best conditions here for success + punish offshoring via tax policy and tariffs.

Test optional is a moneymaker for colleges because it encourages more kids to apply/pay the application fee. The top scoring kids will submit their scores regardless, so schools are still able to identify them. Students who don't submit scores are subject to presumptions

Respectfully @DavidAFrench, pastors aren't the only ones lacking superior insight. A Christian lawyer who claims ppl w/a certain skin color are responsible for correcting the past sins of others w/a similar skin color is making an argument sustainable neither w/scripture nor law.

Sadly, when I see pastors wade in on matters of aw/po icy, it is rare to see superior insight. And when I do it's because of a degree of committed study that is h ghly unusual. Otherwise, pastors risk the r credibility by speaking about things they don't truly .

Who loses? Obviously consumers. Plus: any industry that uses or produces a lot of energy—mining, manufacturing, shipping/logistics, refining. The Democrats are engineering an economy that benefits their corporate allies. American decline is a policy choice.

JD Vance Slams Fauci's Proposal of Vaccine Mandate for Domestic Air Travel

CINCINNATI – JD Vance, candidate for U.S. Senate in Ohio, issued the below statement in response to Fauci proposing the U.S. consider a vaccine mandate for domestic air travel:

"Every time Fauci opens his mouth, the entire country groans in unison. We are in the midst of a massive national COVID wave despite readily available vaccines, yet, instead of focusing on making therapeutics like Monoclonal Antibodies available to anyone who wants them, our bureaucrat in chief just proposed a freedom-crushing and economy-crippling vaccine mandate for domestic airline travel. This new proposal won't save any lives and solves no problems except for Fauci's sad desire to make headlines by threatening Americans with a loss of their most basic liberties. Shame on Fauci for this new proposal, shame on the media for cheering him on, and shame on Biden for keeping him in his job."

These candidates deserve every bit of your support.

   Are you saying that a company must serve someone who violates their terms of service? Do you have the same opinion on Masterpiece Cakeshop? I presume your outrage is based on legal reasoning.

      Shouting "Fire!" in a crowded theater isn't protected speech because it can get people killed. That also applies to her speech on here. That's not censorship. It's being responsible. It's not allowing someone to yell "Fire!" in a crowded theater.

This is the people's House. Thaddeus Stevens argued for the abolition of chattel slavery there. Abraham Lincoln served there. John Quincy Adams uttered his last words there, *after* he served as president. If you allow its members to be silenced by these companies, we're done.

The fraudulent J6 Select Committee is the real assault on Democracy. Dems are using it to bully & torture their political opponents.

The weak Republicans who can't see this are part of the problem.

A GOP Majority MUST fight fire with fire & investigate BLM's Summer of riots.

The media could not be played

Going to the gym on lunch breaks was always my favorite part of the day. Clear my head, sweat out the stress, have a writing breakthrough. I stopped when I got pregnant in 2020 and was really looking forward to getting back. That's what I'll miss the most.

American hospitals are overwhelmed. It's time to take this seriously. As a start, let's fire thousands of nurses who refuse to get the vaccine. That will help.

JD Vance Issues Statement on 49th Annual March for Life

CINCINNATI – JD Vance, candidate for U.S. Senate in Ohio, released the following statement in light of the annual March for Life taking place in Washington, D.C. today.

"Last Sunday, I was honored to march with hundreds in Cincinnati to support the unborn, and commemorate the millions of innocents lost since the travesty of Roe v. Wade. I'm praying for and cheering on the thousands marching in DC today. The pro-life movement in this country is an example to all of us, as it has patiently, but diligently gone about the work of protecting our most vulnerable. We must remember while abortion has taken the lives of countless innocents, it has made our society see life as an inconvenience to be discarded, rather than a blessing to protect and nurture. That must change. Thanks to the efforts of the pro-life community, we know it will.

People like @patrickjwitt, @JDVance1, @votejohngibbs, and I do have degrees from prestigious schools & worked at top-notch firms

We also all realized, from the inside, the scam the ruling class perpetrates upon everyday citizens
